

INTISARI

Laporan kerja lapangan ini disusun untuk mengetahui penerapan manajemen aset pada siklus pengeluaran Direktorat Manajemen Aset dan Pengadaan Universitas Surabaya (MAP UBAYA), terkait pengadaan barang, tagihan barang, dan pelabelan barang. Laporan kerja lapangan ini bertujuan memaparkan kegiatan penulis selama melaksanakan magang di Direktorat MAP UBAYA. Data laporan kerja lapangan diperoleh dari pengalaman penulis selama magang, yaitu berasal dari dokumen dan informasi dari karyawan yang terlibat dalam siklus pengeluaran, seperti Tim Pengadaan dan Petugas Pengelolaan Aset.

Laporan ini secara khusus membahas mengenai perbandingan praktik dan prosedur, penerapan teori manajemen aset dan pengendaliannya pada siklus pengeluaran di Direktorat MAP UBAYA. Hasil perbandingan antara praktik dan prosedur mengidentifikasi tidak banyak perbedaan yang mayoritas karena semua aktivitas terintegrasi oleh sistem *online* milik UBAYA. Sedangkan hasil penerapan teori manajemen aset beserta pengendaliannya antara praktik mengidentifikasi sudah diterapkan secara baik. Dengan adanya magang ini penulis dapat mengembangkan *soft skill* dan *hard skill*.

Kata Kunci: Siklus Pengeluaran, Pengendalian , Manajemen Aset

ABSTRACT

This fieldwork report is prepared to know the implementation of asset management on the expenditure cycle of the Directorate of Asset and Procurement Management of Universitas Surabaya (MAP UBAYA), related to the procurement of goods, goods bill, and labeling of goods. This field work report aims to describe the activities of the author during an internship at the Directorate of MAP UBAYA. The field work report data is obtained from the author's experience during the internship, which is derived from documents and information from employees involved in the spending cycle, such as the Procurement Team and Asset Management Officer.

This report specifically discusses the comparison of practices and procedures, the application of asset management theory and its control to the spending cycle at the Directorate of MAP UBAYA. Comparative results between practices and procedures identify not much of a majority difference because all activities are integrated by UBAYA's online system. While the results of the application of asset management theory and its control between identification practices have been applied well. With this apprentice the writer can develop soft skill and hard skills.
