ABSTRACT

This report aims to draw personal selling activities at the Surabaya network development division, Rodex tour & travel. Personal selling is direct communication between the seller and the prospective buyer to introduce a product to prospective buyers and shape customer understanding of the product so they will try to buy it.

The activities carried out during field work are to carry out the role of Network Development staff who assist the personal selling process. These activities are associated with the 8 step theory that sellers must do in personal selling. During field work practices there were some obstacles in the process of personal selling. Therefore, Surabaya's Rodex tour & travel, especially the Network Development section needs to make improvements so that the personal selling process gets better.
