ABSTRACT

The increasing number of coffee connoisseurs in Bali and Indonesia makes the cafe business grow rapidly, and competition is getting tougher. One of the most famous coffee shops is DHE Cafe, with a unique coffee gallery theme in terms of system, location, interior, and product. The purpose of this business design is to identify and analyze the business design of DHE Cafe in East Denpasar. This research uses the Business Model Canvas (BMC) approach. The results show that when designing a business model, producer aesthetics, business design, strategy, and innovation are all affected by the business model concept, which is a business plan that affects every element of the business model canvas. events, key partners, channels, consumer segments, and revenue streams. Consumer relations need to be improved to retain customers.
