

PROSES *PURCHASING* DI KENDHI PITOE PARK DESA SELOTAPAK TRAWAS MOJOKERTO

Julda Rahmatullah Manajemen Jejaring Bisnis

ABSTRAK

Laporan Kerja Lapangan ini menggambarkan proses pembelian barang di *Cafe Kendhi Pitoe Park*. Data – data yang dibutuhkan untuk analisis tersebut diperoleh pada saat proses MBKM dan disusun secara sistematis dan dideskripsikan untuk memperoleh gambaran mengenai proses pembelian bahan baku dengan mengacu pada teori Van Weele (2010) mengenai enam tahapan dalam *purchasing process*. Hasil dari analisis ini menyatakan bahwa secara garis besar, proses pembelian bahan baku di *Cafe Kendhi Pitoe Park* telah mengacu pada teori *purchasing process* Gelderman dan Van Weele (2010) yang terdiri dari enam tahapan, yaitu *define Specifitations, Select Supplier, Contrating, Ordering, Expediting, followup and evaluation*. Namun demikian Kendi Pitoe Park tidak masih menggunakan beberapa cara yang tradisional karena menurut mereka lebih mudah. Cara tradisional tersebut seperti tidak menggunakan sistem kontrak tetapi memakai bukti pembelian. Dalam praktiknya masih ditemui permasalahan seperti kapan membeli, berapa jumlah yang di beli dan proses pencatatan yang masih menggunakan cara tradisional. Penulisan ini dibimbing oleh Fitri Novika Widjaja, S.Si., M.MT., SCM. Dan Prita Ayu Kusumawardhany, S.E.,M.M., SCM.

ABSTRACT

This Fieldwork Report describes the process of buying goods at Cafe Kendhi Pitoe Park. The data needed for the analysis was obtained during the MBKM process and systematically arranged and described to obtain an overview of the raw material purchasing process with reference to Van Weele's (2010) theory regarding the six stages of the purchasing process. The results of this analysis state that in general, the process of purchasing raw materials at Cafe Kendhi Pitoe Park refers to the purchasing process theory of Gelderman and Van Weele (2010) which consists of six stages, namely define Specifications, Select Supplier, Contracting, Ordering, Expediting, follow-up and evaluation. However, Kendi Pitoe Park does not still use traditional methods because they think it is easier. The traditional way is like not using a contract system but using proof of purchase. In practice, there are still problems such as when to buy, how much was purchased and the recording process still uses traditional methods. This writing was supervised by Fitri Novika Widjaja, S.Si., M.MT., SCM. And Prita Ayu Kusumawardhany, S.E.,M.M., SCM.
