About the journal

The Science and Technology of Fuel and Energy

Research into **energy sources** remains a key issue. Over the last 90 years, Fuel has been the leading source of primary research work in **fuel science**. The scope is broad and includes many topics of increasing interest such as environmental aspects and pollution.

A wide variety of fuels are covered:

•...

Calls for papers

Towards Cleaner Production of Greener Fuels for Future & Sustainable Energy Systems, Green Production and Sustainable Energy-ICAFEE 2023

Guest editors: Abdulaziz ATABANI, Fares ALMOMANI, Amani AL-OTHMAN, Kyu-Jung CHAE -

Submission deadline: 5 April 2024

This Special Issue at FUEL will contain peer-reviewed and high-quality papers selected from The 6th International Conference on Alternative Fuels, Energy and Environment: Future & Challenges (ICAFEE 2023). The conference will be held in October ...

[FEEDBACK](#)

Recent advances in green ammonia production and storage (GAPS)

Guest editors: Sabarathinam Shanmugam, Giovanni Cinti, Jiao Xue Submission deadline: 30 October 2023

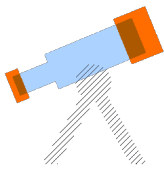

Carbon-neutral fuels came to the limelight to circumvent the staggering energy crisis issue of the world population. Of the different carbon-free fuels proposed, ammonia stands out as one of the promising fuels owing to its global mass production, ...

Special Issue on Gas Hydrates

In recent years, various experimental and theoretical methods have been applied to explore their potential in development and production of gas hydrates. Also, advances in computational methods and modeling have made possible our ability to ...
